

Lego Your Imagination!

Wifi: RIT-Guest **Pin:** Put in phone #, RIT will text you a pin.

On your table you will notice some Legos. While people are still coming in, I have a **First Five** assignment for you. Scan the QR code below, or go to <http://teachertricks.org> and watch the brief **Lego Your Imagination** video at the top of the page. The video will explain what I would like you to do with the legos. This activity also gives you a chance to try QR code and differentiated video instruction. Something we will be chatting about later today. If you don't have a QR code, go to your app store and download i-nigma. It is the fastest QR Code I have tried.
